

The DIRCO Travel Smart App

Empowering South African Citizens
Abroad

Introduction

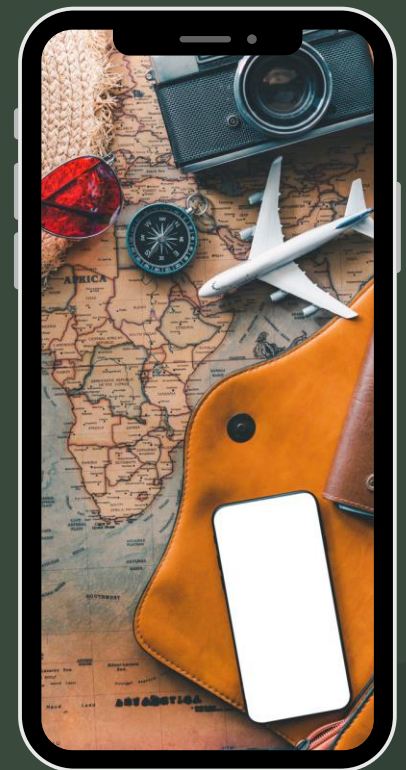

As globalisation continues to bring the world closer together, an increasing number of South African citizens find themselves travelling, living, or working abroad. While these experiences can be enriching and fulfilling, they can also expose citizens to unforeseen challenges and risks. In response to these growing needs, the Department of International Relations and Cooperation (DIRCO) has collaborated with Xiquel Group to develop the Travel Smart App, a groundbreaking tool designed to transform consular assistance for South African citizens abroad.

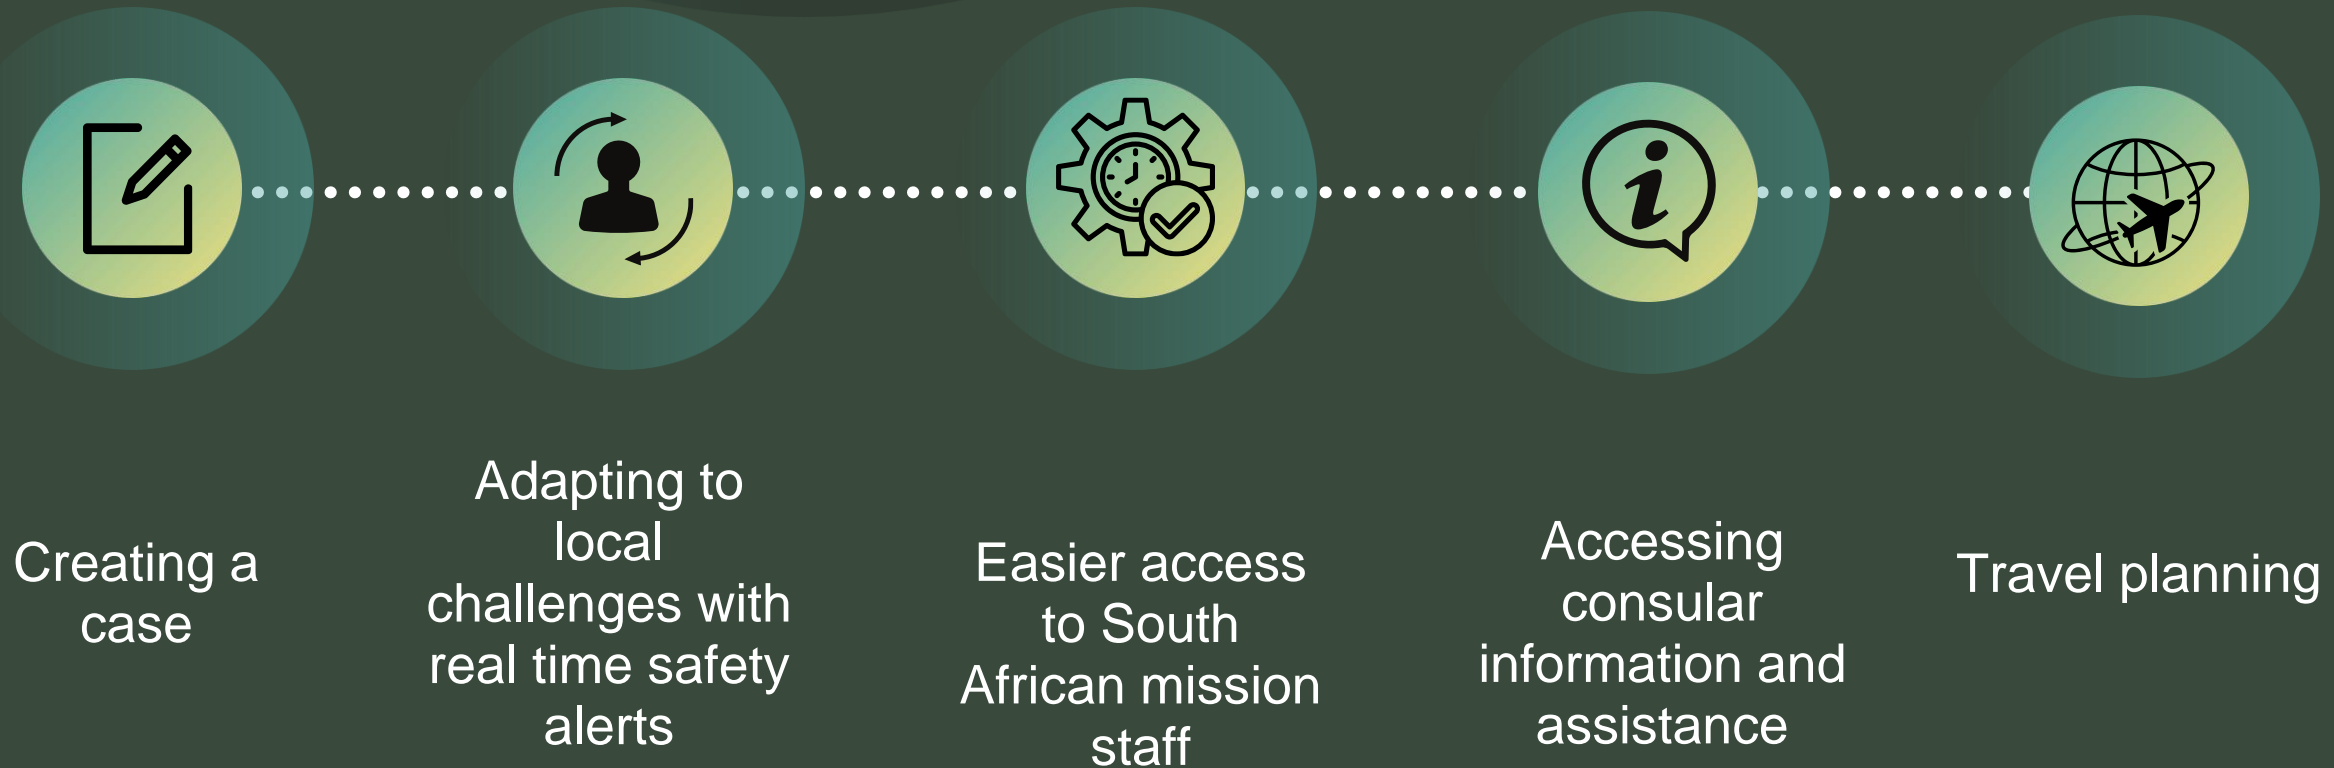

TRAVEL SMART WITH DIRCO

The Purpose of Travel Smart

Travel Smart is an app that targets South African citizens who are travelling abroad, whether it be for work or leisure. The App offers a suite of innovative features that provide unparalleled benefits, convenience, and support ensuring that South African citizens feel protected, informed, and connected, no matter where their journey takes them. By harnessing the power of technology and user-centered design, the Travel Smart App is poised to revolutionise consular services, transforming the way South African citizens navigate the complexities of life abroad.
